## Why MozyPro?

MozyPro by Decho combines the simplicity of MozyHome with all the professional features you would expect from a full-service backup solution: faster upload speeds, server and network share support, powerful administrative capabilities, and 24/7 technical support. The result is the best data protection possible for your business.

MozyHome is for personal use only and may not be used for commercial or business purposes of any kind, as explained in the MozyHome End User License Agreement. For corporations, small businesses, independent contractors, and even the self-employed, Mozy has made business-strength backup affordable with MozyPro – a secure solution that's easy to use.

MozyPro Admin Console

Server and Network Share Support

In addition to Windows 2000, XP, and Vista, MozyPro also supports the Windows Server 2000 and 2003 operating systems that most servers run on. This means protection for your critical Exchange, SQL, and file servers. MozyPro also has the ability to back up files and folders over network drives.

Powerful Administrative Capabilities

MozyPro helps you take full administrative control of your company's data backup via a web-based Admin Console where you can:

- Create sub-administrators
- View individual and aggregate account usage, history, and stats
- Reset account passwords
- Distribute the MozyPro software to groups of users
- Customize individual and group configuration settings

MozyHome does not offer management of multiple users from one central location. Through the Admin Console, MozyPro helps businesses small and large manage company backups and restores any time, anywhere.

24/7 Technical Support

As a MozyPro customer, you'll have access to 24/7 email and phone support. MozyPro's expert technicians are available round the clock to assist with any backup or data restoration questions or issues you might have. MozyHome customers receive email and chat support during business hours.

See the difference

MozyPro offers online backup for businesses at $3.95 per license and $.50 per GB—giving you enterprise-quality data protection at a cost up to 10x less than other solutions.

What are you waiting for?

It's easy. Thousands of businesses worldwide from virtually every industry trust MozyPro for their data backup needs. Sign up for an account today at https://mozy.com/pro, or contact the MozyPro sales team at 1-877-MozyPro (669-9776) to start protecting your critical company data.
